SHIPPERS AND NOTES.

There was an increase of 2,000 hogs There was an increase of 2,000 hogs in the Union stock yards the week just blosed. It was the best week at the tards during the current year. More hogs were sold, and less hogs not sold, than at any time for years.

The business at the yards during the week is cultimated at 120 Mg. This does

The business at the yards during the week is estimated at \$130,000. This does not include the business done by the Dold Packing company, which in itself is a tremendous item of commerce. It would not be far from the truth to say that the combined business in the yards and packing house districts during the week amounted to very near a quarter of a million dollars. It is the biggest single line business interests in the city, although Wichita people seem to over-look the fact. Dold's packing house and the stock yards did more business during the week than the combined business of stated simply to show the importance of the north end of Wichita as a factor in the great prosperity of the city. It was mon a claim of this kind that Superintend Dulaney and others thought that the street car company ought to extend their line a few blocks to the yards. There are evidences that the business of the stock yards will increase at least cixty per cent before very long. The feeling is in everybody that things are coming the way of Wichita in the cattle and hog line, to say nothing of sheep. The tendency of the packers is towards the zone of production, and with each year the production of meat animals is that within two years a business of half million dollars per week will be transunlikely that the business will be increased \$100,000 per week within a few months. Confidence is a great thing and one can find great, big chunks of it about the packing house and stock yards

There is talk now of establishing a big market steady, good to prime steers, market for feeders at the yards. Small \$5.1065.75; poor to medium, \$4.5050.00; setowns like Emperia, in the past, have lected feeders, weak, \$1.7050.00; nixed been better feeder markets tham stockers, \$3.7504.25; cows. \$3.004.65; Wightts, notwithstanding the fact that incires, \$2.35(3.90; canners, \$2.35(3.90; Wightts is in the best feeding belt in bulls, \$5.00(84.00; calves, \$5.00(87.00; Texas America. A good market for feedors fed steers, \$1.5005.25; Texas grass steers, would be a big lining for Wichins and the \$1.75094.40; Texas buils, \$2.2003.70.
Union stock yards.

Chief Clerk Harrison of the Dold pack26,000 estimated; left over, 1,000. Opened white

ing house, had another busy day with weak, closed strong, steady; top, \$5.50; traveling mon yesterday. They showered orders in upon him. The Dold company is doing an immense business in Wightta and the territory south for 200 miles or more.

ITCH-ITCH-ITCH.

THE MOST TANTALIZING AND OBSTINATE OF ALL BLOOD DISEASES.

Eczema's itch is torture, the skin seems on fire with the burning, stinging humor—at times it becomes almost unbearable, and in desperation you could tear the skin to pieces. You dare not exercise for fear of aggravating the itching, neither can you sleep, for no sooner does the body become warm than the trouble begins, and instead of restful, refreshing sleep, it is scratch, scratch, scratch all night long, There is scarcely a moment's respite from this maddening malady at any time. Of course you have tried all the washes, salves, lotions and medicated soaps, but like thousands of others have been disappointed and disgusted - these can give only temporary relief.

Eczema is caused by an acid poison in the blood which keeps the skin in an unhealthy, irritated condition. It is useless to attempt to cure with external remedies a disease that is so clearly and undeniably attributable to a bad condition of the blood, made so by the accumulation of effete matter in the system which has poisoned the blood, and through it the skin. If the blood is healthy and pure, the skin will be soft and smooth.

There are many varieties of Eczema - all bad, but some worse. The most common is characterized by great redness and inflammation of the skin with a pustular eruption; these little pustules or pimples burst and discharge a watery, sticky fluid, which dries and forms fish-like scales, or the skin becomes hard and dry, having somewhat the appearance of leather. Again the disease may and discomfort.

and ulcers, that cause much pain and discomfort.

Eczema must be

CURE THE BLOOD. treated through the blood system, and S. S. S., the great vegetable blood purifier, neutralizes this acid poison and thus cures thoroughly and per-manently all kinds and all stages of this violent disease. No other CURE THE DISEASE.

is so virulent, no blood trouble so complicated and deep-seated that S. S. S. does not reach, overcoon drive out of the system. If you have not let this make a skeptic of you, for Eczema is not incurable. S. S. S. has been curing it for nearly fifty years, and notwithstanding constant treatment, it has been spreading and growing worse. I used salves and lotted the worst form of Eczema. I was stant treatment, it has been spreading and growing worse. I used salves and lotted the worst form of Eczema. I was incurable that the ordinary blood medicines and local treatment fail to bring relief, since they do not reach the blood, the seat of the trouble, but simply dry up the external signs for a time; and, as a matter of course, the disease returns, and you are ready to believe like a host of others that Eczema once, Eczema always, if you have it in childhood, you will have it in old age.

S. S. S. has no equal in the cure of deep-scated blood and skin disease.

S. S. S. has no equal in the cure of deep-scated blood and skin disease.

S. S. I felt that the disease was gradually strended form my toes to my knee, and the pain and Itoling was almost unberrable. On account of my age (which is 70) the physicians said a cure was impossible. One dezen bettles of S. S. S. and after taking fifteen bottles I was wonderfully improved and delighted with the results. I took four more bettles, and was practically a new man. Before taking S. S. S. I felt that the disease was gradually and selected intensely with a skin disease, which finally proved to be the worst form of Eczema. I was treated by the best doctors, but without permanent benefit, and when the disease finally extended from my toes to my knee, and Itoling was almost unberrable. On account of my age (which is 70) the physicians said a cure was impossible. One dezen bettles of S. S. S. and after taking fifteen bottles I was wonderfully improved and delighted with the results. I took four more bettles, and was practically a new man. Before taking S. S. S. I felt that the disease was gradually selected. tried other treatments and failed, do

ous drugs to ruin the digestion and break down your constitution. It is a safe and reliable remedy for old and young.

medicine possesses such curative, such searching powers. No poison

Don't neglect first symptoms because they are not severe ough to cause you much annoyance. Eczema grows worse all the time, and though the outward signs may disappear for a time, it is not an indication that the disease has left for good; for as long as the poison remains in the blood the akin will suffer, and every fresh attack increases in severity, until the disease becomes chronic and serious.
